# Design for life.

Laminex® has been part of Australian life for more than 80 years. Our commitment to design, innovation, quality and sustainability endures. That's why we continue to produce a beautifully curated collection of decorative surfaces. They're perfect for a wide range of styles and applications, and are designed to stand up to the rigours of everyday life.

# Navigating the range.

We know design decisions can be challenging, so to help make things easier we have specifically selected a timeless range of **Woodgrain laminates** that are split into three categories – **Grey Tone, Light Warm Tone and Dark Warm Tone Woodgrains**.

## Grey Tones

From pale ash hues to smoky undertones, grey tone woodgrains draw inspiration from weathered natural timber and are a versatile choice for interiors.

## Light Warm Tones

Light woodgrains offer elegant simplicity and work perfectly for a modern style. These décors are inspired by maple and oak timber and range from pale, golden hues, through to rich caramels and classic mid tones.

## Dark Warm Tones

Dark tone woodgrains are inspired by traditional hardwood and encompass a range of mid-brown hues to rich dark chocolates and blacks to create a sophisticated edge.

Laminex woodgrain laminates realistically capture the colours, textures and fibre detail of natural timbers in a surface material that's highly durable, easy to clean and affordable. Available in a wide range of authentic décors — recreating everything from oak, maple and birch ply to jarrah and walnut — they offer superior scratch, stain, heat and UV resistance, so they won't age or discolour with repeated use, as timbers can in similar interior applications.

# Laminex Finishes.

The Laminex Woodgrains are available in a range of products and finishes for various applications. Here's a guide to each of the laminate finishes:

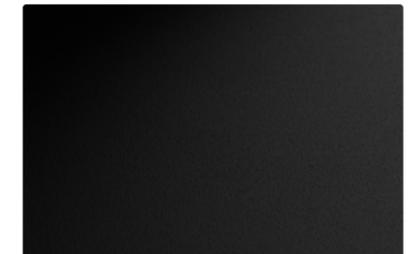

## Natural Finish

A low sheen, smooth touch surface that is a durable and low maintenance option for benchtops and cabinetry.

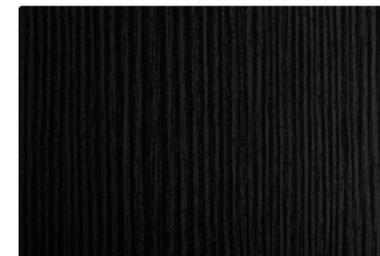

## Flint Finish

A subtle textured finish with a soft sheen that is a durable and low maintenance option for cabinetry.

## Chalk Finish

A low-gloss tactile finish with the look and feel of a raw veneer, suitable for benchtops and cabinetry.

## Nuance Finish

A combination of matte and gloss that mimics the effect of a sandblasted straight grain to add beauty and realism. Designed for cabinetry and low-wear surfaces.

## Silk™ Finish

A luxurious semi-gloss surface that is easy to clean and adds sleek style to cabinetry.
